

Homework

Data-inspired art

Instructions

Please address one or more of the following questions or prompts with responses in a typed file, submitted to D2L as a pdf. You should submit at minimum a one-paragraph response. There is no strict benefit to writing substantially more, but you are welcome to do so. A recording of the presentation will be available soon after class for review, if necessary.

- Did you have a favorite piece of art, either because of the subject matter (person) or subject matter (discipline or technical content) from the talk?
- We have spent most of our semester talking about code-based visuals, describe your reaction to encountering analog, artistic visualizations.
- Describe a lasting impact that this presentation could have on you as a student, professional, or hobbyist.
- What was your main take-away message from the talk?

Submission

Submit a pdf file to D2L by the end of the day on Friday, May 1, 2026.
